

EZ-CAP®: Benefits Administration Made Easy

Cut through the Complexity: Easy to Install, Use, and Modify

The healthcare industry is faced with unprecedented complexities, demands, and challenges, yet its information infrastructure has traditionally relied on antiquated systems that are costly to maintain and difficult to modify.

As the business and regulation of healthcare continue to evolve, **EZ-CAP cuts through the complexities** by providing healthcare organizations with an advanced solution that delivers **reliability, performance, and cost-containment**. Depending on your environment, the system can be **up and running in as little as 60 days**

A Comprehensive, Integrated Solution

EZ-CAP is a comprehensive, integrated benefit administration system that meets all your administration and managed care needs.

The system offers sophisticated features typically found in only the most expensive software packages, yet EZ-CAP is affordable and user-friendly.

The system manages multiple lines of business from a single, integrated database, and supports day-to-day business operations for many different types of organizations, including HMOs, MSOs, PHOs, IPAs, TPAs, specialty service organizations, medical groups, self-funded organizations, hospitals, and government-sponsored health plans.

Health plan contracts
Case management

EZ-CAP Benefits

HIPAA ready

Cost savings in administration, efficiency, and productivity

System flexibility is defined by users and driven by simple, easy-to-understand tables

Easy to interface with other systems, allowing you to leverage existing technologies and investments

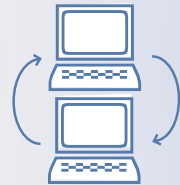

Fully equipped training facility, superior product support, and annual user group conferences for all customers

Online healthcare portal allows for real-time submission and inquires regarding eligibility, treatment authorizations, and claims

Advanced Modules Give You the Complete Package!

EZ-CAP® will help you accomplish all your benefits administration goals, streamline business processes, and reduce the costs to deliver effective and timely care. To achieve this, we offer additional advanced modules that work seamlessly with the EZ-CAP solution:

EZ-NET™ is our real-time provider portal that facilitates timely, cost-effective sharing of clinical and administrative information, thereby reducing the costs associated with traditional data exchange (phone, fax, and mail). The portal offers you the ability to look up the status of member eligibility, benefits, claims and referrals. Additionally, providers can submit referral requests, receiving an automated and immediate decision, as well as claims.

EZ-EDI™ offers next generation EDI capabilities to easily retrieve information and perform transactions in real-time. EZ-EDI also simplifies the complexities of formatting HIPAA transactions through the use of ground-breaking “drag & drop” mapping capabilities.

EZ-CARE™ strengthens care management to enhance the wellness of your patient population. The system handles case management, disease management, and utilization management, delivering improved medical outcomes and quantifiable savings. This advanced medical management patient care and tracking tool provides workflow capabilities, routing information to clinical staff along with customizable surveys and assessments protocol. It helps you to increase profitability through the cost containment of high-risk patient cases.

EZ-VIEW enables clients to electronically attach and store scanned images (e.g., paper claims and attachments) so they can be later viewed with a click of the mouse.

Flexibility to Adapt

EZ-CAP provides a powerful and agile solution, enabling you to be a leader in today's complex and ever-changing market. The system provides flexible business logic that allows you to adapt to market conditions and offer more flexible benefits for an increasingly sophisticated and demanding market.

Excellence and Loyal Customers

The product has a history of excellence, recognized as the nation's leading health benefits information system for the past decade. The system currently manages over 12 million active lives and boasts the industry's most loyal clientele.

Valuable Partnerships

EZ-CAP has developed partnerships that enable our clients to enhance revenue, reduce expenses, and complement the functionality of our EZ-CAP solution. These partnerships bring you the additional value and leading-edge innovations to successfully achieve your business goals
