Value Proposition

Cost Effective Solutions: Agile processes and faster delivery cycles help our customers gain competitive advantage by ensuring faster time-to-market, reduction in total cost of ownership (TCO), leading to increased ROI.

Team: Industry-certified domain experts working with world class technology experts to provide our clients with a team which understands their business priorities.

Quality Focus: As an ISO 9001 company with CMMI initiative, we adhere to stringent quality standards. This ensures that project delivery happens within the budgeted resource and time limits.

Proven Delivery Model: Our delivery model is supported by best practices that give complete visibility to the customers. It judiciously balances the offshore and onsite components for the various phases of the project to deliver cost effective solutions.

Customer Focus Groups: At Inteq each customer receives an unmatched focus by the dedicated groups from business and technology domains.

Inteqians

Our biggest asset is our people and we have a tradition of 'Innovation through people'. Inteq has a pool of qualified and well-rounded technical talent consisting of programmers, software engineers, business analysts, testing engineers, technical writers, technical architects and project leaders. We have a pool of domain experts with extensive industry experience.

Based on the experience in deploying IT solutions to our clients, our resources have developed a good understanding of and expertise in the business needs, workflows, processes and long range perspectives of multiple domains.
